# Summary

**Overall Sales and Profit** trends show consistent growth, with **Technology** being the top-performing category.

**Regional analysis** reveals that the **West and East regions** generate the highest profits, while the **Central region** underperforms.

**Sub-Category breakdown** identifies **Chairs and Phones** as top sellers, but some categories like **Tables** and **Bookcases** are generating losses.

**Customer Segment insights** show **Corporate and Consumer segments** driving most revenue.

**Discount impact analysis** highlights that excessive discounts are correlated with negative profit, especially in Office Supplies.

**Shipping analysis** indicates that **Standard Class** is the most used ship mode but also associated with longer delivery times. Faster shipping may improve customer experience.

The calculated **Days to Ship** metric helps evaluate logistics efficiency across regions and segments.
